Link, Video, Download, And Password, Will Show a White page, with the content Locker over it. And once completed, will redirect the user to the Page/URL that is locked.

Transparent on the other hand, will show the actual Page, with the Content Locker Over it.

You will want to Use Transparent as Much as you Can. Because People Like to See the Content they’re looking for Right be hide the Locker.

### Step 3.

Answer The Question.

Here’s an Example of a Good question to answer.

**What are some of the best computer screen filming software?**

We will now go to [www.Google.com](http://www.Google.com)  
And Look for Screen Capture Software.

In this case, I found Camstudio.org

We Then Lock the URL (See Above for info on how to Lock)  
And Answer Him.

Notes: **Don’t Spam.** Answer them by name. And Make sure your giving them what they want.

**Tip.** You can also Ask A Question With 1 Account. And Answer it with another. That way you could rate your own answer “Best Answer”

## **Method 3.**

### **YouTube.**

#### **What you'll need.**

**A YouTube Account.**

**Video Editing/Creation Software. Like Windows Movie Maker.**

#### **Optional: But Very Helpful Tools.**

**A YouTube View Maker.**

**Here's the one I Use. [CLICK HERE](#)**

**A YouTube Downloader**

**(Allows you To Download Someone Else's Video)**

**Here's the one I Use. [CLICK HERE](#)**

**Of the 3 Methods,**

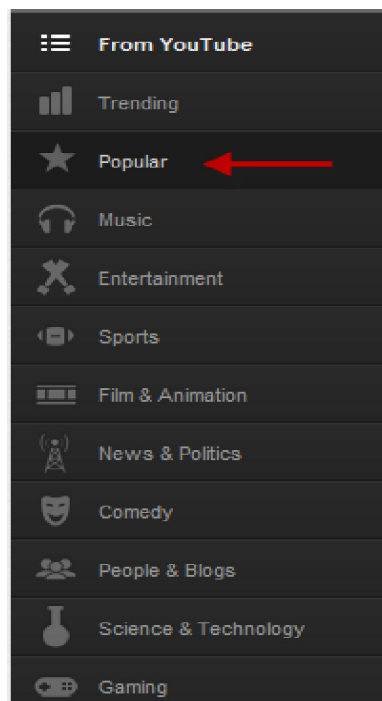

**This is the most time Consuming, But also the most powerful.**

**Now there are literally Dozens of ways you can make a Video to Host online. But I'm going to share my Favorite.**

#### **Step 1.**

**Research.**

**Go to [www.Youtube.com](http://www.Youtube.com) and find the most popular Videos.**

**These Videos Are the “Movers And Shakers” Of the YouTube Community.**

**Try and Find a Video that is based Around Something that people Want.  
Like A Movie Trailer, you could Lock a link to a Leaked Scene.  
If it’s about Gaming, You could Lock a Link About Cheat Codes.  
You have to “Think Out of the Box” on this one  
You can either download Someone Else’s Video (See Tool Above)  
Or make your Own.**

## **Other Traffic Ideals**

**It’s All about “Thinking Out of the Box”**

**Think about, what could you give people, that they would want badly enough, to Fill out a form to get it?**

### **Twitter**

**Twitter can be a huge source of traffic for you if you know how to build your Twitter network on a daily basis.**

**I use Automated Software to do this for me.**

**(Email Me Below for more info)**

**Your goal with Twitter is to network and build relationships and these relationships can lead to more traffic. As always, find what people want!**

**And give it to them! One Twitter post can become so viral that it can send tens of thousands of visitors through your Locked Link!**

### **Create a .pdf Cheatsheet**

**Go to Gaming Websites. And Collect Cheat Codes and Compile them into a Word Doc, make it a PDF. Then Upload it, and lock the download link. Make a torrent or a video.**

## **Commenting**

**Making Posts on Forums or Blogs Can be very Profitable. As long as you're giving the readers what they want. And as long as you NEVER Spam! And follow all the rules; it's a great thing.**

## **Lastly. A Website.**

**A Website is the Number 1 Best way to make Money.**

**The Website could be about almost anything. From films, music, Gaming, Sports. As long as everyone coming is after something. You'll make a fortune!**

## **Conclusion**

**In my Closing Comments, I would suggest that if your new to all this. Answer Yahoo questions. Get that Down. And then move on. Don't try to do 20 things at one time. Do ONE thing, and then move on.**

**I hope This E-book Has Helped you. Even if you just found out about URL locking for the first Time, It was Worth The Read. Making Money Online is not as hard AS some make it Out to Be. But you do have to take Action On it. Like the Old Saying Go's "The Journey of a Thousand Miles Begins with the First Step."**
